

Shabtai Levi Home Safe Rooms

PROJECT COST
\$1 MILLION

EACH SAFE ROOM
\$200,000

NO MATCHED FUNDING

\ Who you will help

The Shabtai Levi Home (SLH) in Haifa provides emergency and residential services for children suffering physical and emotional abuse. From its inception in 1945, this non-denominational home has been a safe haven for every family who enters through its doors. The program has been recognized as a leader in child welfare. In 2004, the first Mother/Child Unit was built offering 8 private bedrooms for mothers to live with their children in a closely supervised environment. In this unit, they can maintain a crucial bond with their children, receive parental training - many have parenting difficulties - and transition back to an independent life.

\ Location

Haifa remains a target for rocket attacks from Lebanon. Having adequate safe rooms is a necessity for every building in Haifa.

Funding required for **1 more safe room** to reach our goal!

Shabtai Levi Home Safe Rooms

Your donation will fund

Shabtai Levi Home currently has only one outdated bomb-safe room in the basement of this five-story facility. JNF is supporting the project to raise funds to build additional bomb-safe rooms on each floor of the building, ensuring every child, mother and staff has a safe and quick place to go in the event of an attack.

There are five (5) safe rooms needed for Shabtai Levi House:

- 1st floor safe room: SOLD
- 2nd floor safe room: SOLD
- 3rd floor safe room: SOLD
- 4th floor safe room: SOLD
- 5th floor safe room: FUNDING REQUIRED
